LOGO

Arcada's logo consists of a symbol and a word mark. The logo is always used as a whole. The symbol can be used on its own, however the word mark is always used in combination with the symbol.

The logo may be used in black or in white, depending on the colour of the background. If the background is light the black logo is used, and if the background is dark the white logo is to be used.

All types of modifications of the logo, such as altering its appearance by changing its shape, design, colours or usage of any effects, are strictly prohibited.

LOGO / PROTECTION AREA

The protection area around the logo is used when the logo is placed free-standing or in relation to other logos.

LOGO / CORRECT USAGE

The appearance of the logo must never be altered in image editing programmes, whether through effects, new colours, the addition of text, or changes to its shape. The logo is always used in black or white, and is placed on its own.

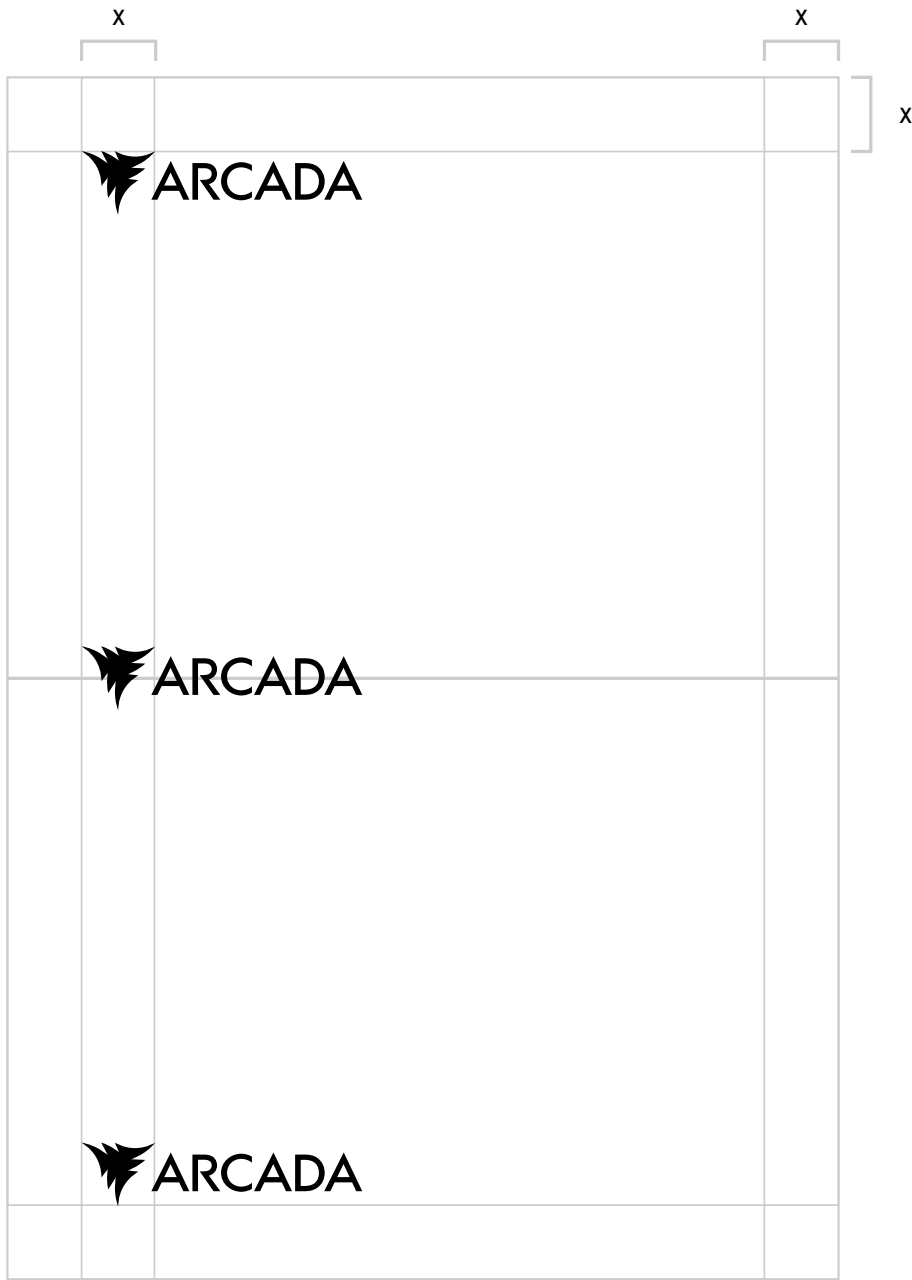

LOGO / PLACEMENT

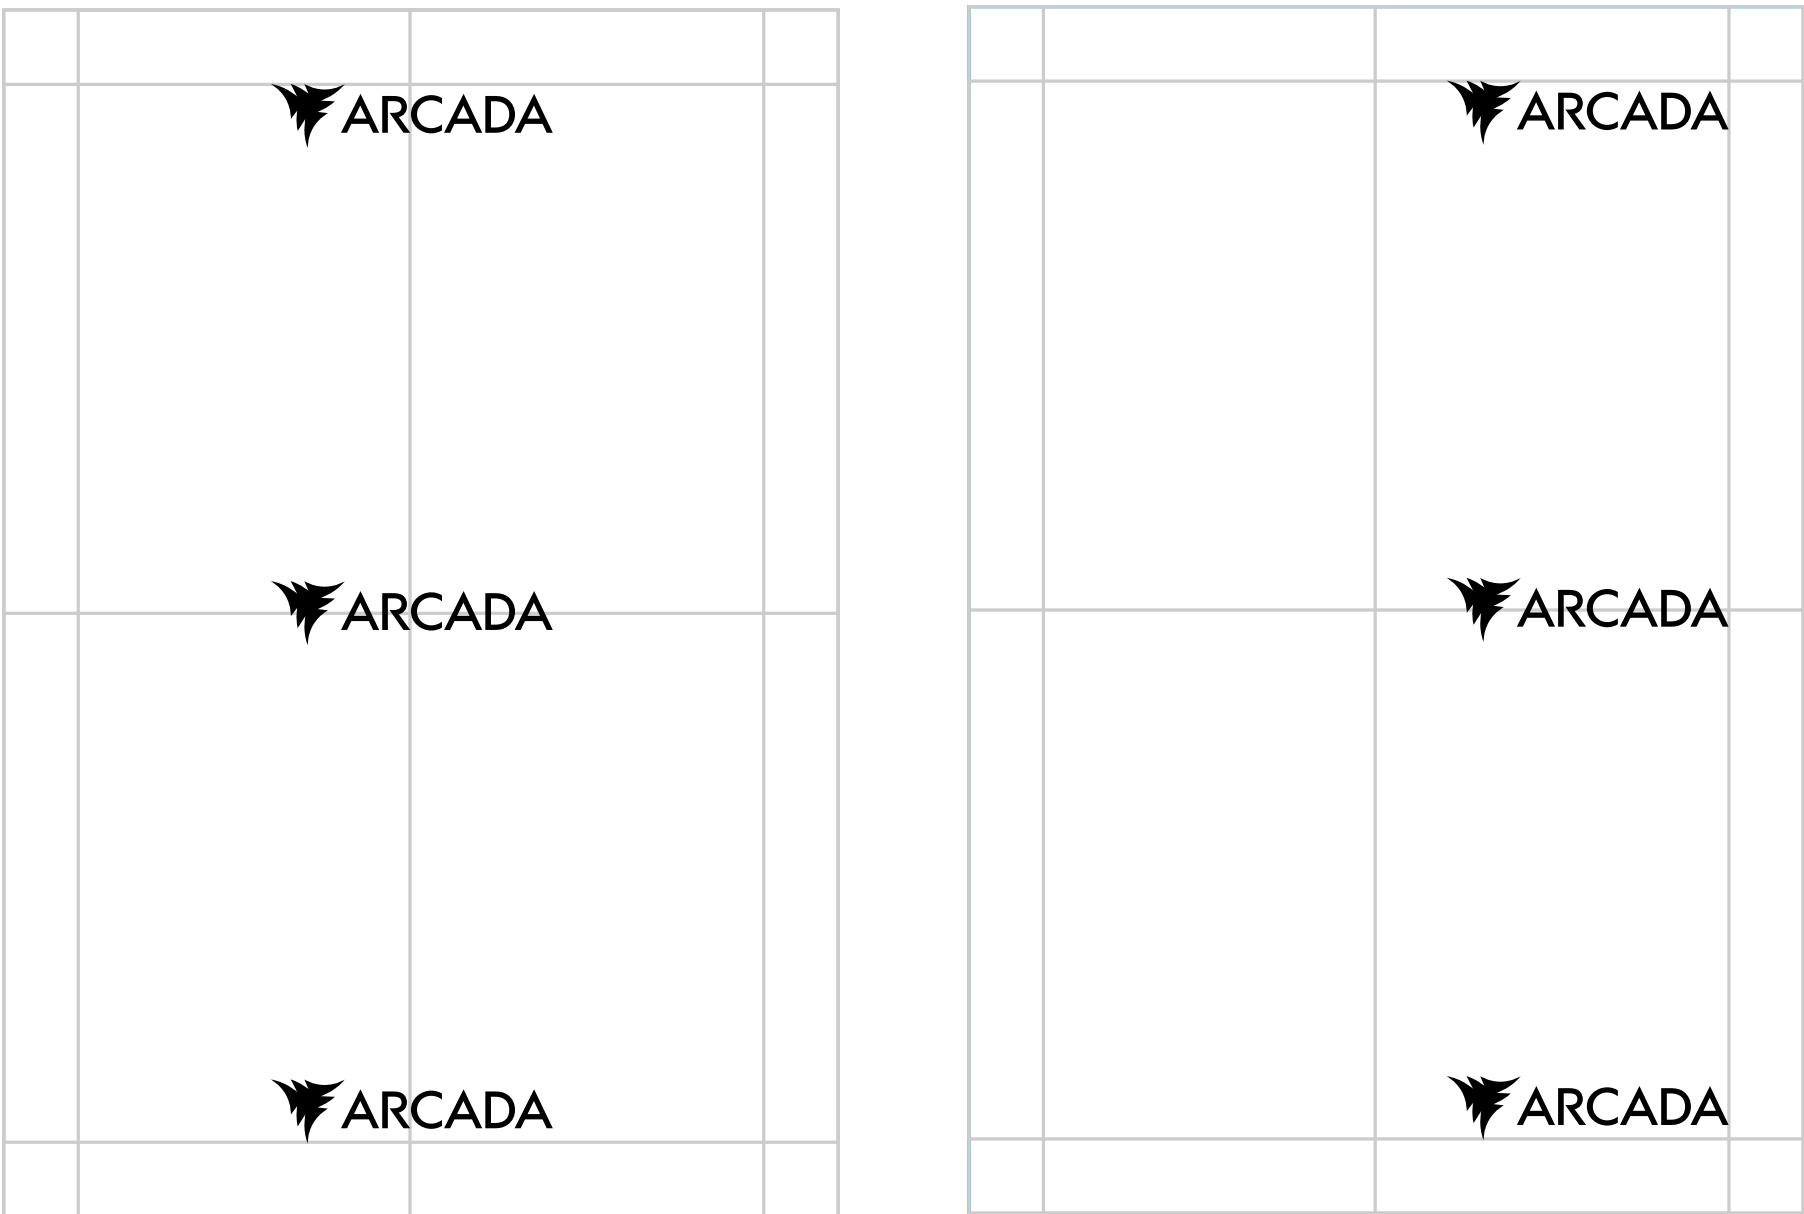

The standard placement of the logo is on the left-hand side. Only in special occasions can a centered or right-handed placement be used.

The logo is either placed in the corner, or vertically centered. Layouts with a centered logo are recommended to be used without other text content.

STANDARD PLACEMENT IS TO THE LEFT

CENTERED OR RIGHT-HANDED PLACEMENT IS USED IN SPECIAL CASES
